

Let Redilight expand your business offering...

Electrical Skylight Alternative

No leaks. No large penetrations. No flashings.

How it works...

Redilight's solar-powered, LED Skylight Alternative is the smart and easy-to-install lighting solution for light-starved areas in the home or office.

The smart Redilight system converts energy from a roof-mounted solar panel directly to stylish LED light fittings.

It works on a sun up and sun down effect - as the sun rises the light gets brighter then, as the sun sets in the afternoon, the light intensity reduces.

Note: Optional Day/Night kits available for night time use. Remote control also available.

Why Electricians love working with Redilight

1

Quick & Easy Installation

Redilight Skyfixtures are extra low voltage, making it quick and simple to install safely. We support our distribution network with detailed instructions and installation videos. A single Redilight Skyfixture can be installed in under an hour.

2

Quality & Warranties You Can Depend Upon

Redilight is the highest quality skylight alternative on the market. Boasting reliable Australian engineering, our distributors and installers know they can recommend Redilight with confidence. Redilight products are supported by an unmatched 7 year warranty.

3

Market & Business Driven Demand

The popularity of Redilight continues to grow and shows no sign of slowing down as more customers discover the power of Redilight. Our head office is also investing in new promotional strategies designed to drive sales directly throughout our distribution networks.

4

Unmatched Support For Installers

The Redilight team is renowned for providing unrivaled support for Redilight distributors and tradespersons. Whether it be our prompt ordering and delivery times, technical and after-sales assistance or offering supportive account terms - we are here to help you.

5

High Profit Margins

Redilight network of installers report high marginal returns from both residential and commercial installations. Combined with the ease of installation, quality, warranties, demand and support - you will drive profit for your business by working with Redilight.
