

OPTIONAL ACCESSORIES

REMOTE CONTROL

Put the power of Redilight in your hands with our easy-to-use remote control handset.

The remote control kit comes with handset and the remote-enabled driver.

Turn Skyfixtures on and off with a simple press of a button.

Set brightness with 10 pre-set dimming options to suit any mood or occasion.

DAY-NIGHT KIT

Gives your Redilight 24-hour capabilities by allowing you to choose between two power sources – solar and the grid.

Use the sun's free energy through the day then continue to enjoy your Redilight at night by easily switching to the extra low voltage power supply.

LED SKYFIXTURE OPTIONS

6 watt Small Recessed
Round light (110mm)

*available in kits of 2 or 4 lights

6 watt Small Recessed
Square light (110mm)

*available in kits of 2 or 4 lights

12 watt Medium Recessed
Round light (220mm)

24 watt Recessed
Round light (330mm)

24 watt Recessed
Square light (330mm)

24 watt Slimline Surface
Oyster light (330mm)

FLAT PANEL SERIES

36 watt Recessed
Square light (450mm)

*surface mount or recessed options

48 watt Recessed
Square light (600mm)

*surface mount or recessed options

48 watt Recessed
Rectangle light (1200mm x 300mm)

*surface mount or recessed options

ABOUT REDILIGHT

Redilight's solar-powered skylight alternative is the energy-smart solution to brighten dark areas in the home or office.

Unlike traditional skylights, Redilight's innovative design overcomes the challenges of building structures, difficult roof lines and multi-level dwellings. Say goodbye to those large and unsightly roof penetrations which can compromise your roof's integrity.

Simply mount the solar panel on the roof and run the interconnecting cable to the Redilight Skyfixture - it really is that easy.

HOW IT WORKS

The Redilight solar panel converts energy from the sun to deliver extra low voltage to your Redilight Skyfixture(s).

The light works on a sun-up-sun-down effect, with the brightness increasing as the sun rises during the day then decreasing as the sun sets.

Want more light? Redilight's optional Day-Night Kit allows the skyfixture to be switched between solar or extra low voltage grid power at any time for full powered light.

EASY INSTALLATION

Redilight is extra low voltage so you don't need to be an electrician to install it - making it the perfect home DIY project.

Our entire range is supported by easy-to-follow installation instructions and detailed tutorial videos on our website.

Redilight also offers an extensive range of approved installation partners servicing metropolitan and regional Australia.

CHOOSE FROM 5 REDILIGHT KITS

PANEL	TOTAL LIGHT WATTAGE
20 watt	light configurations up to 12 watts
35 watt	light configurations up to 24 watts
75 watt	light configurations up to 48 watts
