

OPTIONAL ACCESSORIES

REMOTE CONTROL

Put the power of Redilight in your hands with our easy-to-use remote control handset.

The remote control kit comes with handset and the remote-enabled driver.

Turn Skyfixtures on and off with a simple press of a button.

Set brightness with 10 pre-set dimming options to suit any mood or occasion.

DAY-NIGHT KIT

Gives your Redilight 24-hour capabilities by allowing you to choose between two power sources – solar and the grid.

Use the sun's free energy through the day then continue to enjoy your Redilight at night by easily switching to the extra low voltage power supply.

LIGHTING OPTIONS

6 watt Small Recessed
Round light (110mm)
*available in kits of 2 or 4 lights

6 watt Small Recessed
Square light (110mm)
*available in kits of 2 or 4 lights

36 watt Recessed
Square light (450mm)
*surface mount or recessed options

48 watt Recessed
Square light (600mm)
*surface mount or recessed options

48 watt Recessed
Rectangle light (1200mm x 300mm)
*surface mount or recessed options

48 watt Recessed
Rectangle light (900mm x 600mm)
*surface mount or recessed options

LED SKYFIXTURES

FLAT PANEL SERIES

ABOUT REDILIGHT

Redilight's solar-powered skylight alternative is the energy-smart solution to brighten dark areas in the home or office.

Unlike traditional skylights, Redilight's innovative design overcomes the challenges of building structures, difficult roof lines and multi-level dwellings. Say goodbye to those large and unsightly roof penetrations which can compromise your roof's integrity.

Simply mount the solar panel on the roof and run the interconnecting cable to the Redilight Skyfixture - it really is that easy.

HOW IT WORKS

The Redilight solar panel converts energy from the sun to deliver extra low voltage to your Redilight Skyfixture(s).

The light works on a sun-up-sun-down effect, with the brightness increasing as the sun rises during the day then decreasing as the sun sets.

Want more light? Redilight's optional Day-Night Kit allows the skyfixture to be switched between solar or extra low voltage grid power at any time for full powered light.

EASY INSTALLATION

The entire Redilight range is supported by easy-to-follow installation instructions and detailed tutorial videos to ensure simple and efficient installation.

Redilight also offers an extensive range of approved installation partners that service metropolitan and regional Australia.

Our partners are familiar with our entire range of products and accessories so you get the best results every time.

CHOOSE FROM 5 REDILIGHT KITS
