

Hybrid Day/Night Kit

Model No. RS-PS60K, RS-PS150K, RS-PS250K

The Redilight Day/Night kit was created so your Redilight can be more than just a solar light during the day. The Day/Night kit allows you to choose between two power sources, Solar and the Grid. This is manually done by simply flicking a switch.

Day/Night Switch

The Day/Night switch gives you the control to choose between Solar or the Grid.

By having the switch in the Day position this allows the light to be powered by the sun, if the switch is in the Night position than your light will be powered by the low voltage power supply (Grid).

Day/Night Switch

Power Supply/Transformer Specifications

Available Sizes	75watt, 150watt & 240watt
Design	Encapsulated
Input	240 volt
Output	32 VDC
IP rating	IP67
Input lead	1.5m length 2 core lead with pin plug
Output lead	600mm of twin DC cable

Low Voltage Power Supply

Day/Night Changeover Switch Wiring
