

20 Watt Solar Panel Kit

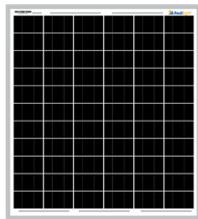

Product Code:
RS-SPK20

The Redilight 20 Watt Solar Panel Kit includes a high efficiency Monocrystalline PV panel which is mounted using either tile or metal roof bracket systems.

The kit also includes 10m of DC Solar cable which is run from the Solar Panel down to the light fitting.

Solar Panel

- Nominal - 24VDC
- Voltage max (Vmp) - 36.80v
- Current max (Imp) - 0.55A
- Size: 350 x 390 x 30mm

Tile Roof

- 4 x adjustable stainless steel brackets
- 4 x 12mm hex head SDS screws
- 4 x 25mm hex head screws

or

DC Solar Cable

- 10m of 2 core double insulated cable
- 1.3mm² Tinned Plated Wire
- ROHS Compliant
- UV Protected
- 300V

Metal Roof

- 4 x aluminium brackets
- 1 x rubber flashing
- 4 x 12mm hex head SDS screws
- 4 x 25mm hex head screws
- 4 x 25mm type 17 hex head screws

Heavy-duty cyclone rated mounting bracket kits (optional)

Tile Roof

- 4 x tile brackets
- 4 x adjustable end clamps
- 4 x rail lugs
- 12 x 14g 10 TPI Tek screws (buildex screws)

Mounting Rail

- 2 x 500mm long rail

Metal Roof

- 4 x aluminium tin brackets
- 4 x adjustable end clamps
- 4 x rail lugs
- 4 x rubber washers
- 1 x rubber flashing
- 4 x 14g 10 TPI Tek screws (buildex screws)

Notes:

- All holes are to be pre-drilled
- Each tile bracket must have a minimum of 3 screws
- Refer to the Wind Region Table to determine mounting bracket spacing.
